

Carles Bennassar

I am a dedicated developer with hands-on experience in blockchain technologies. With a degree in Physics and a Master's degree in Blockchain Technologies, I have a solid foundation in both mathematics and Ethereum technologies. My professional journey includes contributions to Smart Contract prototyping and discussions, technical documentation, and using multiple frameworks and programming languages. I excel in teamwork and adapt effectively to diverse working environments, driven by a passion for decentralized solutions and continuous learning.

WORK EXPERIENCE

2024 JUNIOR SOFTWARE DEVELOPER

Aragon

- Focused on Subgraph and JavaScript Libraries, contributing to Aragon's OSx infrastructure.
- Involved in Smart Contract and OSx's future discussions.
- Reviewed numerous pull requests and made small contributions from Aragon OSx Smart Contracts and repositories, gaining hands-on experience in developing, testing, and reviewing.
- Worked with Git workflows.
- Authored and maintained the subgraph technical documentation.
- Assisted in building and maintaining the documentation site, enhancing its usability and accessibility for users and developers.

2023 DATA ANALYST

SDG Group

- Contributed to a migration project for ISDIN, a leading pharmaceutical company, ensuring seamless data transition.
- Developed Python code to automate the transfer of files to Google Cloud, improving process efficiency.
